

HOBIE MIRAGE PRO ANGLER

HOBIE MIRAGE PRO ANGLER

Looking for a no-holds-barred fishing platform? Look no further. Offering unprecedented access to out of the way spots, the Pro Angler will get you to the kind of honey-holes power craft can only dream about. No launch ramp? No problem. This lightweight boat can slip in just about anywhere. And talk about versatile... The Pro Angler is at home on the pond, back bay and even the ocean. And the patented MirageDrive™ pedal system leaves your hands free to cast and fight fish at will.

The Pro Angler was purpose-built for the serious fisherman. Its 600-pound payload means you can bring all the rods, reels and tackle imaginable. Protected storage for six rods plus two additional rod holders; space for 13 Plano® tackle boxes; three in-hull storage compartments, plus additional trunk storage for an optional Livewell, crate, or cooler. There's also a breathable, fully adjustable Cool Ride seat, a work area/cutting board, and replaceable mounting boards on each rail to attach your fish finder, GPS, lights or downriggers.

The revolutionary, task-specific hull offers unsurpassed stability, leaving you free to concentrate on the job at hand. The Pro Angler is clearly one of the world's lightest, most efficient, feature-filled boats on the market today. Enjoy the effortless MirageDrive experience, leaving the fumes, noise, and expense of gas-powered fishing behind. This is fishing, Hobie style.

1. STEERING

The Pro Angler is a pleasure to control while on the water. It operates using a retractable spring loaded rudder that will automatically retract when contact is made with underwater obstructions. It steers effortlessly using a joy-stick like controller that can be located on either the left or right hand side of the boat, depending on the user's preference. Intuitively designed, the Pro Angler steering system allows you to position yourself in extremely tight situations under a wide variety of circumstances.

2. CARGO AREA

Carry as much gear as you need with the Bungee® tie-downs. Perfect for an optional Hobie Livewell, crate or cooler.

3. 8' TWIST AND SEAL HATCH

Allows access to additional storage below deck. A simple twist of the handle opens the hatch or closes it against an o-ring seal. The lid also hinges open, so you won't lose it.

4. VERTICAL ROD STORAGE

Convenient for easy access, great for trolling or for extra rods, gaffs or your trusty net.

5. COOL RIDE SEAT

As many anglers and outdoor enthusiasts know—comfort is essential out on the water. The Cool Ride seat offers plenty of ventilation, lumbar support, and adjustability to find just the right position in any situation.

8. MIRAGEDRIVE

The Hobie MirageDrive is simple and easy to use. Just drop it into the well and the "Click & Go" system instantly secures it into place. Rest your feet naturally on the adjustable pedals then push each pedal effortlessly forward in turn to glide across the water. With each step, the MirageDrive "flippers" flex and take the shape of a propeller blade. The astonishing efficiency of this patented design was developed over the centuries by one of nature's most efficient swimmers...the amazing Penguin. The constant application of power reduces or eliminates the effects of wind and current and gives the Pro Angler quiet, efficient power. The finger-tip rudder control leaves your hands free to cast to that special spot. In shallow water, simply push one foot all the way forward. The flippers come up flush with the bottom of the boat, allowing you to get to fish in skinny water.

6. MID-BOAT GRAB RAILS

Use them to turn the boat on its side to access the hull, or as a convenient brace for getting in or out of the boat. The grab rails house a unique Bungee® system to hold your tackle in place and also includes an 18" ruler for measuring your catch.

7. MESH COVERED STOWAGE POCKETS

Keep the items you need like your pliers, snack or waterproof camera close by.

9. WORKING AREA/CUTTING BOARD STORAGE HATCH

Perfectly placed in front of your seat for easy access. Includes: Cutting board, Plano Waterproof-Stowaway boxes and Hobie's own lure hanger.

10. MOUNTING BOARDS

Designed to mount your accessories: an optional fish finder, GPS, lights, downriggers or anything else.

11. HORIZONTAL ROD STORAGE

Who would have ever thought that you could get up to six rods safely and conveniently stored away in a boat this size? Keep your rods safe from overhangs and free up your casting.

12. FRONT HATCH WITH LINER

Large-opening storage area offers easy access for storing fish or ice and can be removed for cleaning. Or if you like, stow away your jacket, sleeping bag, lantern or tent.

13. FRONT AND REAR CARRY HANDLES

Heavy duty, easy grip carrying handles make moving or transportation on land a breeze.
